## **Meal Modification Plan**

### **Accommodating Individuals with Disabilities in the Child Nutrition Program**

#### **General Information**

School districts must make substitutions for students who are considered to have a disability under 7 CFR 15b.3 and whose disability restricts their diet. 7 CFR 210.10(m). Covered under disability are the following:

##### Major Life Activities:

- Seeing, hearing, walking, speaking, learning, eating, breathing
- Caring for oneself; Performing manual tasks; Seeing, Hearing, Speaking; Eating, Sleeping, Walking; Standing; Lifting, Bending; Bathing; Reading, Learning, Thinking; Communicating; Working

##### Major Bodily Functions:

- Digestive immune system, respiratory, circulatory, neurological/brain
- Functions of the immune system; Normal Cell Growth; Digestive, Bowel, Bladder; Neurological, Brain; Respiratory; Circulatory; Endocrine; Reproductive

#### **Reasonable Modification**

Andes Central School District will make reasonable accommodations to those children whose disabilities restrict their diets, such as providing substitutions or modifications in the regular meal patterns. These meal substitutions will be offered at no extra charge.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Modifications will be made to accommodate a disability will be determined on a case-by-case basis. Health concerns or preferences that a child eat a specific diet because the parent/guardian believes it is healthier for the child are not disabilities and do not require a modification.

The modification provided:

- Should be related to the disability or limitations caused by the disability
- Does not have to be the modification requested
- Must (generally) be free of charge
- Should be implemented even when the person requesting the modification believes more should be done

Many food allergies fall under the definition of disability. To be considered for a meal modification plan, a medical statement is required, which can be completed by a state-licensed healthcare professional. The form is included in this plan.

#### **Medical statement requirements**

- Provides information about impairment- A diagnosis is not required.
- States how diet is restricted
- States how to accommodate condition

If the medical statement relates to a food allergy, the following are the three essential components:

1. The food to be avoided (allergen)
2. Brief explanation of how exposure affects the student
3. Recommended substitute(s)

#### **Parent/Guardian Notification**

The Andes Central School District will provide notification to parents/guardians of its meal modification procedures via the following sources:

1. Student Registration  
When student's first register with the Andes Central School District, either in kindergarten or at any other time.
2. District Website  
The website will include information on meal modification procedures.

The meal modification plan will be available to all parents/guardians by request from a teacher or building principal.

Where to send Requests:

The Request for Meal Modification form should be sent to the school nurse in the building the student attends.

**Appeal Procedure**

If a meal modification request is denied, an appeal can be directed to the Building Principal in charge of the building at which the student attends.

A response will be provided, and every attempt will be made to provide a prompt and equitable resolution. If resolution cannot be reached, a parent/guardian may request and participate in an impartial hearing to resolve the grievance, with the opportunity to examine the complete record. After the hearing, the parent/guardian will receive notice of the final decision and the basis for the decision.
