Medication at School:

According to New York State Law the only way any medication, over the counter or prescription, can be given during school time is if the school nurse receives a note from the healthcare provider giving permission for it to be administered. Please do not send medication to school for a child to take on his/her own.

Medications of any type carried in school by students without a healthcare provider's order is against the drug-free policies of the school and a violation of state law.

If medication must be given in school, this must be indicated below by the healthcare provider. The bottom section of this form must be signed by a parent. **Medications must be brought to the Health Office by a parent** in the original container with the pharmacy label attached. **Please advise your pharmacy that you will need medication to keep in school as well as at home.**

Edward Sanford, RN

Health Care Provider's Section:

Students' Name _____ Date of birth _____
